Summary

Frontend Developer with 5.1 years of experience in building responsive web applications using HTML, CSS, Bootstrap, and React.js. Strong in UI development, problem-solving, and delivering high-quality solutions on time. Skilled in collaborating with teams and contributing to critical project goals.

Work Experience

Publicis Groupe: Jan 2025 – Present

- Acted as a key contributor for critical client deliveries, resolving technical blockers and ensuring timely project execution.
- Collaborated closely with cross-functional teams, including backend developers, designers, and QA, to deliver high-quality user interfaces.
- Participated in and led Proof of Concepts (POCs) for evaluating new libraries, frameworks, and design patterns.
- Conducted knowledge-sharing sessions to upskill team members and promote best practices within the frontend team.
- Optimized web applications for performance, accessibility, and responsiveness across devices and browsers.

Tata consultancy Services: Mar 2021 – Jan 2025

- Developed and maintained web applications using ReactJS, Redux, and React Router.
- Implemented responsive design and cross-browser compatibility using Bootstrap and CSS.
- Integrated RESTful APIs with Redux for state management and improved application performance.
- Created reusable and scalable components with a focus on code modularity and clean architecture.
- Participated in Agile development processes, including sprint planning, stand-ups, and retrospectives.
- Conducted code reviews and provided constructive feedback to ensure code quality and consistency.
- Worked with Git and GitHub for version control and collaborated with other developers in a team environment.
- Optimized application performance using techniques such as lazy loading and code splitting.

Certifications

- Veeva certification for CLM and Email
- AWS cloud partitioner -2022
- Certified in Web Development from INTERNSHALA- 2018
- Post Graduate Diploma in Computer Application from Mind mart Computer Center-2015

Technical Skills

- React Js
- Javascript
- Typescript
- CSS
- Bootstrap
- HTML
- Next Js
- MongoDB
- MySQL
- NPM
- JSON
- Rest Api
- GIT version control
- Python

Tools

- Visual Studio Code
- Git Extension
- Jira
- Postman

Achievements

- Achiever Award in Publicis Global Delivery
- Learning Achievement Award, On the spot and Best Team Award in TCS
- Earned 4 star in Python Programming in Hackerrank Platform – 2020
- Ranked 34 out of 40k+ participants in OJEE for MCA in 2017

Education

Master of Computer Application: 2017-20

College of Engineering and Technology, Bhubaneswar
CGPA – 7.8

Bachelors in Science: 2014-17

Kabi Samrat Upendra Bhanja college, Bhanjanagar
Percentage – 68.33%

Personal Projects

E-commerce Website *A scalable and user-friendly online shopping platform designed for seamless browsing and smooth checkout experience.*

- Built a responsive UI optimized for all devices
- Implemented product listing, search, and filtering functionality
- Developed cart and checkout flow with smooth state management
- Focused on performance and clean component architecture

Stack: React.js · Node.js · Express · MongoDB

Expense Traker *A beautifully crafted expense management app designed for clarity, speed, and simplicity.*

A modern mobile-first application that helps users track spending, visualize expenses, and stay in control of their finances through an elegant and intuitive interface.

- Clean and premium UI focused on usability
- Real-time expense updates with smooth interactions
- Smart filtering and category-based insights
- Designed for performance and scalability

Stack: React Native · Expo · TypeScript
